MyRating: Test Website

test

The quality of a website defines the success on the internet, also in economical terms. Score points on the Qualidator (from **Qua**lity Va**lidator**) and bring the potential of your website to life.

The Qualidator reviews the first five pages of a website with about 60-70 automated tests, on the core aspects of usability, accessibility, SEO (Search Engines Optimisation) and quality (technical quality).

Please introduce the URL/address of a website. Example: www.microsoft.com. The test will last between one and five minutes, depending on the website and server load.
