

## MYRATING: TEST WEBSITE

The quality of a website defines the success on the internet, also in economical terms. Score points on the Qualidator (from **Quality Validator**) and bring the potential of your website to life.

The Qualidator reviews the first five pages of a website with about 60-70 automated tests, on the core aspects of usability, accessibility, SEO (Search Engines Optimisation) and quality (technical quality).

Please introduce the URL/address of a website. Example: [www.microsoft.com](http://www.microsoft.com).  
The test will last between one and five minutes, depending on the website and server load.

### BRANCH AND GROUP RATINGS

- **Swiss Federal Departments**
- **Swiss Cantons**
- **German Federal Lands**
- **Austrian Federal Lands**
- **Federal Lands and Cantons Germany, Switzerland and Austria**
